

Continuing professional development and training

Ealing is committed to supporting the ongoing development of professional knowledge, skills, practice and competencies of all those working with children and young people. Ealing is developing strong practice particularly in the areas of leadership development, succession planning and school support staff development.

We promote and support a variety of developmental activities across the borough, within and between schools and educational settings. We provide centrally-run training programmes and special events for all school staff, governors and staff working with children and young people both in the public, private and voluntary sector.

This year's programme, managed by the school effectiveness service, for all school staff and governors can be found at www.ealingcpd.org.uk where schools can search for what is available and book online.

All schools are registered on the site and each school has designated CPD Leaders registered to authorize and monitor Ealing training for their school via the site. It will increasingly become a central source of information about training and professional development. Increasingly school to school training and sharing of expertise will also be facilitated via the website during 2011-12.

Training contacts:
