

School improvement support

The Ealing Learning Partnership offers high quality school improvement advice, support and challenge to Ealing maintained schools as well as to academies and others.

Our dedicated team of consultants, advisers and associates will design support to meet your individual requirements.

These bespoke services are available in addition to the statutory functions of the local authority to raise achievement in schools.

Services provided to schools are quality assured and we continuously monitor and evaluate the effectiveness of the support provided.

We keep abreast of changes to the national and local agenda and refine our services to schools as necessary.

Our offer is framed around five broad areas:

1. General support including delivery of our statutory duties
2. Central briefings and seminars
3. Collaborative projects
4. Bespoke work with individual schools
5. The central training programme.

General support to schools includes desktop monitoring to identify concerns, SEN and SACRE monitoring and advice, representation on headteacher and senior leader panels and ECT reporting.

We will provide additional support to schools in the event of significant unexpected pressures.

Our capacity to facilitate central networks/collaborative projects and to offer a bespoke package of support to all schools has been significantly enhanced by the schools forum decision to support the school effectiveness service.
