

## Remote learning resources

The [EdTech Demonstrator Programme](#) offers Department for Education funded support for schools in England with remote education, in terms of peer-to-peer support and online resources.

To register for support for your school, please [register your interest](#). You will then be contacted by a regional lead and matched with an EdTech Demonstrator school or college.

Funding and support is available to get your school set up with a [digital education platform](#), either with G Suite for Education (Google Classroom) or Office 365 Education (Microsoft Teams).

## G Suite for Education

Visit [Teach From Anywhere](#) to find out more about using G Suite for Education with remote learning.

Here are some useful YouTube video webinars from EdTech Demonstrators:

- [Getting started with Google Classroom](#)
- [Introduction to Google Drive](#)
- [Using Google Meet for live lessons](#)
- [A brief introduction to Google Docs](#)
- [How to access Google Forms](#)

## Office 365 Education

Visit [Making the transition to remote learning](#) to find out more about using Office 365 Education for remote learning.

Here are some useful YouTube video webinars from EdTech Demonstrators:

- [Introduction to MS Teams](#)
- [Teams for live lessons – teacher Insights](#)
- [Setting assignments in Microsoft Teams](#)
- [Microsoft Forms – an introduction](#)
- [Recording an MS PowerPoint tutorial](#)

## Apple

Visit [Learning from Home](#) to find out more about using Apple devices and services for remote learning.

Here are some useful YouTube video webinars from EdTech Demonstrators:

- [Deepening remote learning for all](#)
- [Getting started with iPad](#)
- [A 1:1 iPad scheme in your educational establishment](#)
- [Teaching with Showbie](#)
- [How to screen record yourself on an iPad](#)
