

Safer recruitment and employee checks

It is vital that schools adopt recruitment and selection procedures and other human resources management processes that help to deter, reject or identify people who might abuse children, or are otherwise unsuited to work with them.

It is also crucial that everyone working in a school is:

- Aware of safeguarding issues and the need to adopt ways of working and appropriate practice to help reduce allegations
- Able to raise concerns about what seems to be poor or unsafe practice by colleagues and that those concerns, and concerns expressed by children, parents or others are listened to and taken seriously.
