

2019 KS2 performance table checking exercise

02 Sep 2019

The 2019 key stage two performance tables checking exercise enabling schools to check their data prior to publication in the 2019 DfE performance tables, opened on Monday, 2 September.

You will need to check your data and make any necessary amendments (including informing the DfE of any recent arrival pupils you would like removed from your published results) via the [DfE school and college tables website](#) by **5pm on Friday, 13 September 2018**.

While many of you have informed us about your recent arrivals, we are unable to inform the DfE about them on your behalf. **You** must inform the DfE via the tables checking site about any changes (including recent arrival removals) for them to be reflected in the published performance tables and ASP (Analyse School Performance) data.

Useful contacts

Tables checking helpline (for difficulties accessing the system and queries about the checking process)

Tel: 0845 3077867

Email: examshelp@rm.com

Standards and Testing Agency (for queries about your test or teacher assessment results)

Tel: 0300 303 3013.

Email: assessments@education.gov.uk

Please remember that the data in the checking exercise will not yet reflect the outcome of reviews. These are due to be returned to schools on Wednesday, 11 September 2019.
