

## Key Stage 1 non-statutory assessment reports 2021

16 Sep 2021

As you will be aware, the DfE once again cancelled the collection of primary assessment data in 2021 due to the COVID-19 pandemic and partial closure of schools.

Following discussions between the Ealing Learning Partnership and headteachers, the Ealing schools data team gave primary schools the opportunity to submit non-statutory assessment data during July 2021 to enable us to produce a report.

We have now uploaded Key Stage 1 reports for schools based on this data (only available to the Ealing schools that chose to submit). The reports follow a similar format to those produced annually until 2019, but have been amended to reflect the changes in data collection. This year's reports are of the same style as 2020 (for schools who opted to submit data last year).

The reports can be found on your EGfL school page under school reports, 2020/2021, Key Stage 1 (when logged in).

Find your school page on the [schools contact database](#).

### About the reports

The reports do not contain any Ealing or national data as this was not available for 2021. There are also no school comparisons in the reports, as part of the agreement in collecting the data was that no aggregated assessment data would be shared with other primary schools.

These reports are for your own internal use and will not be used for any accountability purposes in line with current DfE guidance for 2021.

We hope you find these reports useful. Please do let us know if you have any comments or queries.
