

## West London sustainability summit: Tuesday 1 July 2025

01 May 2025

We are very excited to announce the West London Sustainability Summit on Tuesday, 1 July 2025 – an event designed by Oaklands Primary School in collaboration with Sustainability Education ([www.sused.org](http://www.sused.org)).

The event takes place at the International School of London. Our theme is: Stories For Change.

This summit will be a unique opportunity to bring together a diverse mix of delegates from the private and state education sector, as well as the local community in West London, to nurture partnerships and to plan for collaborative sustainability actions, as per the UK Government 2025 expectations.

### Outline

The programme, designed in collaboration with the Cambridge Institute for Sustainability Leadership (CISL), will be from 9.30am - 2.30pm and will include four interconnected parts:

- The state of the world
- Stories for Change
- How to turn ideas into reality
- What next? Committed action plans for change.

### Book your place
