Cultural Education Partnership(s) are cross-sector, strategic partnerships that work together to improve cultural education for children and young people (0-25yrs) across the seven towns that make up the Borough of Ealing. Partners come together to drive a more joined-up cultural education offer, share resources, and improve the visibility of cultural education.

Our vision for the CEP is a three-stranded approach that includes:

- Engaging with young people in schools
- Facilitating work experience and providing careers signposting
- Taking cultural organisations into communities

The CEP's aim is to make sure every young person has access to good quality cultural and creative experiences. Ealing is home to many organisations working in the creative industries ranging from music to art and then from culture to film. The Cultural Education Partnership Administrator creates collaborations between schools and education providers, and those who can offer their young people rich local artistic and cultural experiences.

Our aim is for Ealing to be a place where all young people (0-25 years) have access to the richness and diversity of the high quality, vibrant arts and culture programme with a pathway to careers and wider opportunities across the borough.
