Definition of safeguarding

Ofsted adopts the definition of safeguarding used in the Children Act 2004, and in the government's guidance document Working together to safeguard children. This can be summarised as:

- Protecting children and young people from maltreatment
- Preventing impairment of children and young people's health or development
- Ensuring that children and young people are growing up in circumstances consistent with the provision of safe and effective care
- Undertaking that role so as to enable those children and young people to have optimum life chances and to enter adulthood successfully.
