

SEN Gateway

Gateway is a new online portal which is designed to collect information from professionals and parents in a safe and secure way. Gateway offers everyone an opportunity to be fully involved and better informed during the ERSA and EHCP process.

Professional access to Gateway

SENCOs and professionals can now log onto the new system and have instant access to professional reports, draft and final EHC plans, all appendix reports, and information on the funding allocated by Ealing LA.

Ealing Council has been working towards improving the SEND statutory assessment process, this includes the development of Education Health and Care Plans (EHCP), with an emphasis on improving quality, communication and meeting timescales.

Schools access to Gateway

Schools who are registered to use the Gateway will have instant access to information on every child attending their school. Gateway also allows schools to view the funding for individual children as well as produce full financial reports for the whole year.

How schools can register for Gateway

Schools can register or request further support by contacting the Gateway team by email EalingEducationICT@ealing.gov.uk

Gateway user guide for schools

School staff can now access the user guide which has been published online (see downloads below). This document is regularly updated according to staff feedback.
