More detailed information:

Statutory training requirements are detailed in the DfE guidance document [Keeping children safe in schools and colleges](#).

In brief the guidance says that:

- Whole school staff training is required to be an on-going process with at least one formal training every year (at least every two years to be delivered by external providers)
- Designated lead teachers for child protection are required to have initial training and refresher training at least every two years
- Designated lead teachers are required additionally to have regular updates ie safeguarding prevention briefings etcetera
- All staff appointment panels must have at least one member who has successfully attended the DfE approved safer recruitment course.

There is no longer a requirement to train governing bodies. However, training does support the governing body to meet its statutory duties in the guidance.
