Back to school:

Going back to school can be a difficult time. Maybe you are worried about having a new teacher, feeling motivated or homework. It's good to remember that these feelings are common.

Helpful tips!

- Have you planned your week?
- Have you got all the things you need?
- Do you have any goals for the year?
- Who can help you with this?

Struggling with worries

Searching for the evidence...

Step 1. Can you identify a worry or fear that is bothering you?

Step 2. Have a think...where is the evidence that this worry or fear will come true?

Step 3. It is very likely that this worry won't come true, but even if it does, remember that you can get support and manage it!

What you have to say about our workshops:

"Thank you for these sessions. They are such a great service."

"I feel as if, they know what I am going through, perfect details."

"I found the workshop interesting to listen to. Wish I'd had this info when my kids were in primary school."
