This list commences from Monday 6th February 2017 and supersedes any previous list issued.

Each school has a ‘named’ Safer School’s Officer (SSO) and will contact them directly where possible. The only exception to this is in times of emergency when schools have been advised to call ‘999’. This is to avoid any unnecessary delay, obtain facts and ensure the correct response is given.

On receipt of an ‘I’ call it should be assumed that the SSO is not on school site until known otherwise and does not need assistance.

Should an SSO have planned absence or be dealing with something and an ‘S’ graded call comes through another SSO will respond depending on their own availability and location at the time.
