

Non-Statutory Primary Assessment Data Collections 2020

As you will be aware the DfE have cancelled the collection of primary assessment data in 2020 due to the COVID-19 pandemic and partial closure of schools. A full list of changes to DfE statutory data collections can be found here - <https://www.gov.uk/government/publications/coronavirus-covid-19-reducing-burdens-on-educational-and-care-settings>

Following discussions between the Ealing Learning Partnership and headteachers, the Ealing Schools Data Team have been asked to collect assessment data for EYFSP, KS1 and KS2 from primary schools in Ealing. **The return of this data is non-statutory**, but submitting this information will:

1. Enable us to provide pupil level transition data to Ealing secondary schools on their incoming Year 7 cohort for September 2020.
2. Enable us to provide analysis of the data to primary schools in modified LA EYFSP, Key Stage 1 and Key Stage 2 Reports (NB. this will not include school by school comparisons - your aggregated data will not be shared with other primary schools this year).
3. Enable the Ealing Learning Partnership to support schools with their self-evaluation. It will not be used for accountability purposes in line with current DfE guidance (<https://www.gov.uk/government/publications/coronavirus-covid-19-school-and-college-performance-measures/coronavirus-covid-19-school-and-college-accountability>)

By returning this data to the local authority, you agree to it being used for the above purposes.

While we would encourage schools to submit estimated KS2 outcomes so we can provide this data to Ealing secondary schools to support transition and avoid the need for secondary schools to come directly to you for this data, the return of EYFSP and KS1 outcomes is **entirely voluntary** and you only need to do this if you would like us to provide you with analysis of this data.

We are asking schools to submit **KS2 data to us by Thursday 25th June** and **FSP and KS1 data by Thursday 9th July**. Please submit earlier if you are able, so we have more time to check the data.

If you do not intend to participate in these collections, we would be grateful if you could send an email to bullj@ealing.gov.uk to confirm that this is the case.

EYFSP and Key Stage 1

As the Early Years Foundation Stage Profile and Key Stage 1 data returns are teacher assessments, we are asking that schools submit this data following the usual process – i.e. by populating it in your MIS system and exporting the data as a CTF and sending it to the Local Authority by **Thursday 9th July**.

You should therefore follow existing frameworks when making EYFSP and Key Stage 1 teacher assessment judgements. We ask that you estimate outcomes as at the last date schools were open prior to the partial school closure period (which began on Monday 23rd March).

Please submit your data files in the usual way, either via egress secure email to bullj@ealing.gov.uk or via the DfE Sign In School to School (S2S) system. If you are sending files via S2S please make sure you follow the usual file naming conventions:

- If you upload to the CTF section of S2S then the file needs to be named as follows “307SSSS_KS1_307LLLL_001” where SSSS is your school’s DfE number (the 3-digit number at the end should be automatically generated when you export from your MIS system). For FSP the middle part of the file name would be amended “307SSSS_FSP_307LLLL_001”
- If you upload to the Generic File section of S2S the file should be named as follows: “307SSSS_307 LLLL_KS12020” where SSSS is your school’s DfE number and the file name at the end indicates what the file contains, i.e. KS12020 or FSP2020.

Additional guidance for schools using Capita SIMS is available. If your school is supported by 3BM, you will be able to contact them directly for additional support regarding these collections.

For schools using other MIS systems or who are not supported by 3BM, please contact your MIS support provider if you have queries about how to set up your marksheets, complete them and export them from your system.

If you are unable to use your MIS system for these returns but would still like to submit the data, let us know and we will send you a csv template for completion.

Please submit your FSP and KS1 data to the local authority by Thursday 9th July at the latest.

Please submit earlier if you are able, so we have more time to check the data.

Key Stage 2

As there is no statutory framework for teacher assessment for children working at the level of the test in Key Stage 2 subjects other than Writing and Science, we will not be asking for the usual teacher assessment criteria. You will therefore not be able to use your MIS system to make the KS2 return.

Instead we will be sending each school a pupil list based on Year 6 children on roll during the January 2020 Spring census. For each child on this list, we are asking that you estimate an outcome for reading, writing and mathematics.

The three estimated outcome options for each subject are as follows: Working below / toward, Working at, and Working above the expected level. We would expect you to make an estimated outcome judgement based on existing knowledge of the child's attainment level at the point of the partial school closure (which began on Monday 23rd March).

For reading and maths this should be based on what you estimate they would have achieved in the test while for writing this should be based on the teacher assessment standards.

	Reading & Maths	Writing
Working below / toward the expected	expected to have achieved <u>less than 100</u> <i>(or would not have been entered for the test)</i>	Teacher assessed <u>below</u> EXS (Expected Standard)
Working at the expected	expected to have achieved between <u>100 and 109</u>	Teacher assessed as <u>EXS</u> (Expected Standard)

Working above the expected	expected to have achieved <u>110 or above</u>	Teacher assessed as <u>GDS</u> (Greater Depth within the Expected Standard)
----------------------------	---	---

If there are any children **on roll** with you who have joined since January and so are not on the list, please add their details at the bottom and populate their **entry date** in the final grey group of columns 'On / Off Roll Details'. You do not need to include any children who were added to your school roll after the partial closure.

If there are any children on the list who are **no longer on roll** at your school, please leave the blue columns blank, and enter their **leaving date** in the final grey group of columns 'On / Off Roll Details'.

If you would have submitted any children as recent arrivals as part of the DfE tables checking exercise and would like us to remove them from any analysis of this data that we produce for you please flag them with an 'X' in the final yellow column. As a reminder, pupils can be removed as a recent arrival if the following applies:

- they were admitted to an English school for the first time on, or after, the start of the 2018/2019 school year (September 2018); and
- they arrived from overseas prior to their admission; and
- English is not an official language of the country they came from; and
- English is not their first language.

When returning your completed KS2 data, please ensure you send it via egress secure email to bullj@ealing.gov.uk or securely via the DfE Sign-In School to School (S2S) system.

Please submit your KS2 data to the local authority by Thursday 25th June at the latest. Please submit earlier if you are able, so we have more time to check the data.

Further Guidance

We hope these notes provide you with all the information you need, however if you need further support please contact the following:

Support on how to complete and / or return KS2 Data:

- Jennifer Bull - bullj@ealing.gov.uk, 020 8825 5986
- Kim Price - kprice@ealing.gov.uk, 020 8825 8698

Further information about why this information is being collecting and how it will be used:

- Nigel Cook - CookN@ealing.gov.uk
