EGFL Directors Report – Villiers’ Achievements & Successes

Staff, parents, pupils and governors have been celebrating several achievements and awards recently, such as:

**Highest Progress 8 Score ever in its history:**

Following the ‘Outstanding’ Ofsted judgement in May 2019, Villiers achieved the best ever results in its history at GCSE with the Progress 8 score of 1.09 placing the school 29th out of over 6000 state schools around the country in the National Performance League tables. This is a tremendous achievement and it puts us above some of the high performing grammar schools in the neighbouring education authorities.

**Green Flag award:**

Our students have always been environmentally conscious, but as reflective learners, they acknowledged that there was more we, as a school, could do to reduce our carbon footprint and protect the environment. In September 2018, Villiers High School began its journey to becoming a Green Flag Eco School through the selection of the Villiers Eco-Warriors committee. Within one academic year, they have achieved the Bronze, Silver and Green Flag Award status for their school. Ofsted praised Villiers in their May report for ‘giving pupils strong support to develop healthy lifestyles and good mental health’. Read more about the initiatives the Villiers Eco-Worriers introduced and the projects they ran on the Villiers High School website.

**Ealing Netball Tournament for Primary schools**

Villiers hosted the Ealing Netball tournament for 26 Primary schools. The tournament was a great opportunity for Villiers students and teachers to develop positive relationships with our local Primary schools. We welcomed the opportunity to share our expertise and resources. The Villiers 6th form sports leaders refereed and oversaw the whole competition and assisted the primary school students. Despite the inclement weather, everyone had an exciting day and congratulations to the Clifton Primary school for winning the tournament.
