

Getting the most out of FFT Aspire and the new RAISE replacement

Following the launch of the DfE's new ASP system, this two-hour abridged version of our Autumn Roadshow will outline the key changes and look at how FFT Aspire can be used in conjunction with ASP to ensure that schools can effectively evaluate their performance and measure progress. Delegates will need to bring along a copy of their school's FFT Aspire School Dashboard for Governors and School Leaders, as they will be working from this during the session.

The dashboard can be downloaded via the home page of www.fftaspire.org. Please contact your school's FFT Aspire administrator if you require assistance.
