

School partnerships and enrichment team 2022/23

Removing barriers, expanding horizons, raising achievement

Our services

We offer a range of different services that can be tailored to the needs of individual schools

The school partnerships and enrichment team have extensive experience of working with school leaders to creatively tackle barriers to learning faced by pupils outside of the classroom.

We have a range of specific packages available for schools to purchase:

Packages 2022/23	Price
Bespoke consultancy package	£1895
Curriculum enrichment package	£105
Fundraising and grant writing package	£1895
Primary careers package	£960

The above prices are for Ealing Learning Partnership (ELP) members. Non-ELP schools will be charged an additional 10%. The delivery of purchased packages is on an academic basis. Details for each package are outlined below.

Bespoke consultancy package £1895

Four days of bespoke consultancy support delivered in school and tailored to the exact requirements of your school. Areas of work that we can cover include:

- ★ Engaging parents in their child's learning and school life
- ★ Enrichment activities for pupils and families
- ★ Linking learning to future education and career choices
- ★ Bespoke project development to tackle barriers to learning

A tailored programme of support will be designed following an initial planning meeting with a senior leader at the school.

Curriculum enrichment package £105

Harness the potential of free and low-cost opportunities, both in and out of school, to support the delivery of a wide-ranging curriculum through enrichment opportunities that extend beyond the academic, vocational, or technical.

Schools will be able to use the resources to broaden knowledge and awareness of opportunities that nurture and develop pupils' talents and interests.

The package includes:

- ★ Termly Horizon bulletin: a roundup of free and low-cost opportunities for school resources, training, school visits and places of interest with free entry.
- ★ Let's Get Out and About school holiday newsletter that includes free and low-cost activities to encourage families to visit places of interest and enjoy the wide range of activities on offer in libraries and museums, and outdoor places to explore
- ★ Exclusive invitations to events and local opportunities us and our networks.

"The Horizons Bulletin is a fantastic digest of the free local and London-wide events that enrich the Cultural Capital opportunities for our children at Mayfield. I look forward to reading every edition!"

Bespoke fundraising and grant writing £1895

If you are low on time and want hands on support to develop and prioritise projects, identify funders and make grant applications on your behalf.

This package includes four days of bid writing support.

In our experience, school-based projects focusing on the following groups and activities tend to be more successful at attracting external grants:

- ★ Pupils with special educational needs and vulnerable pupils and families
- ★ Environmental projects; outdoor learning
- ★ Science, Technology, Engineering and Maths (STEM) outreach
- ★ Arts and theatre educational trips
- ★ School holiday activities
- ★ Projects that involve working in partnership with other schools.

The school partnerships team has had significant success in securing money for the benefit of Ealing schools – over £1.2m since 2011!

100% of schools who purchased a package from the team in 2019/20 rated the service as good or outstanding

Primary careers package £960

Employer Engagement at primary level gives all pupils the opportunity to meet positive role-models and have regular conversations that challenge stereotypes, raise aspirations, and broaden horizons.

Evidence shows that positive impacts from career-related learning are greater when a consistent and whole school strategy is in place.

Career-related learning in primary schools is not about setting pupils down a specific path, but ensuring they understand that there are many options open to them.

To successfully develop a whole school approach, we would work with you to review what is already being done and advise and support you on how to fill in the gaps, closely aligned with your school priorities. Therefore, this would be a bespoke package with a clear focus on embedding and weaving career - related learning through the curriculum.

Some examples of ways we could support your school, depending on your priorities:

- ★ Plan and deliver a school employer engagement event in school with a range of local volunteers
- ★ Signpost to activities and resources to challenge gender stereotypes about future careers and those which support pupils to develop employability and life skills to help prepare them for the next stage of their education
- ★ Provide you with links with employers, a college, or a university.
- ★ Identify and apply for funding to support raising aspirations themed events in school e.g. STEM event.
- ★ Work with a local high school and their students to develop and maximise bespoke transition opportunities for KS2 pupils, these could be subject focused, supported by an employer, college or university
- ★ Run a workshop for parents to raise awareness of the benefits of developing aspiration and employability skills in primary aged pupils using London labour market information followed up with pupil and parent careers related activities
- ★ Support for staff and governors to link career related learning and cultural capital throughout the curriculum to enhance the experience and opportunities available to children, particularly the most disadvantaged.
