

NQT Manager

The Local Authority (LA) EALING Council as the statutory Appropriate Body for NQT induction for your school, uses the secure online system 'NQT Manager' developed and maintained by [Evolution Internet Ltd](#) (details below) to manage the assessment process for your statutory induction year.

The personal data captured and held on the system is only what is essential to enable NQTs to complete their statutory induction year - which is required by law. We collect and process the personal information schools provide under the legal basis of: 'Performance of a contract'
