

# Continuing professional development (CPD) and training

for primary and special schools  
2018/19

## About us

Ealing Learning Partnership (ELP) is committed to supporting the ongoing development of professional knowledge, skills, practice and competencies of all those working with and on behalf of children and young people.

There are strong effective collaborative links with Ealing Training School Alliances (TSAs) and schools. Together, we offer a broad programme of quality assured developmental networks, meetings, conferences and other centrally run or school-based CPD opportunities.

Consistently nearly 100% of participants say they would recommend the course / event they attended to others.

**“Why do we need training and continuing professional development – not because we are not good enough – but because we can be even better” (adapted from Dylan William)**

## Ealing CPD online

Programmes and events on offer to all school staff and governors are detailed at [www.ealingcpd.org.uk](http://www.ealingcpd.org.uk):

- Browse, book online or find out how to apply for places
- All Ealing schools and many others are registered on the site
- Each school has designated CPD leaders registered who can authorise and keep track of Ealing training their own staff have booked or participated in online.

Email [eec@ealing.gov.uk](mailto:eec@ealing.gov.uk) for queries about the training programmes, CPD Online and to register a school on the site.

## Training providers

The programme is led and delivered by a strong team of professionals with local, national and specialist knowledge and expertise including:

- Senior LA officers, advisers, consultants and associates; leaders and advanced practitioners from schools and settings
- Further and higher education, Institute of Education, National College
- National and international recognised educators, speakers, authors and accredited providers.

## DfE standard for teachers’ professional development July 2016

**“Professional development must be prioritised by school leadership”**

We support the standard for all school staff and governors in our planning, delivery and evaluation of the CPD and training we offer and it is expected that schools will share the responsibility for this by:

- Focussing beforehand on the desired impact/outcomes of participation
- Providing the best context to support colleagues in embedding the learning into practice to influence transformation
