You might have noticed we have launched the new EGfL website in October.

You will notice that our new website has the following new and improved features:

- Better organised - according to your usage and feedback
- Faster
- Easier to navigate and search for information, dates and contacts
- Easier to see and use on your mobile and tablet.

Based on your queries we have created an instruction media file and FAQs to support you with finding your way around the new site as well as guidance for user accounts. These are all published on the website. We hope you find this useful.

User Accounts

On 29th October those with EGfL user accounts have received an email to reset their password.

If you haven't received this email, you can also reset your password yourself. Here a useful guide to help you with this:

Your user account grants you access to secure data on the EGfL, such as services for schools content, governor toolkit, LA reports and school effectiveness team profiles.

School Reports have Moved

For those that have access to school reports, you can now access school reports on the individual school page: [find your school page](#) (this is a link to the 'find a school' section on the EGfL).
