

I Am Special

Everyone has things that make them special. These might include being kind, being a good friend or being a good listener. People can be special because they are good at a school subject, such as maths, reading or art. Hobbies make people special, like being able to play a musical instrument or being good at cycling or swimming. Draw a picture of yourself in the middle of the shield. Then, in each section, write about different things that make you special. You could even draw a picture to go with it.
