

SEND Consultancy Proposal

2018 - 2019

Ealing Primary Teaching School Alliance makes a direct contribution to the aim of Ealing's 'Achieving Excellence Together Strategy 2015-2018'.

Through a suite of training packages and professional support every school and provider (primary) can access services to address the gaps in the quality of provision and progression pathways for children with SEND to secure the very best inclusive practices.

Successfully established professional relationships enhance our capacity to develop, guide support and broker relevant learning and support for staff, opening communication and networking between professional groups.

Key Aims

Strategically develop and lead training programmes to strengthen leadership of SEN in mainstream primary schools (SENCo network; governor training; SENCo induction; National Award SENCo accreditation etc.)

To strengthen school self-evaluation and improvement planning for low attaining groups and SEN to raise standards through a robust peer-review model.

To offer a bespoke consultancy and support service to a range of professionals including classroom support, teachers, SENCos, Deputies and Headteachers.

To Date

<ul style="list-style-type: none"> • 30 Send Peer Reviews since September 2015 • Team of Experienced Peer Reviewers • 3 SEND Conferences with Key speakers including Diane Rochford • Annual SEN Marketplace to share best practice and support within Ealing • Autism Education Trust licence holders for schools' programme (5-16 age) • Facilitators of SENCo Networks within Ealing • Partnership with IOE to facilitate school-based Induction and NASENCO in Ealing 	<p><i>QUOTES:</i></p> <p><i>'Thank you for a valuable experience. The Governors have found both the SEND SEF and the SEND Peer Review Report particularly useful as it has enabled them to see the links with School Improvement and a detailed review of the provision of SEND within the school'</i></p> <p><i>'The fresh-eyes approach helps to sharpen practice, enables the school to celebrate its strengths and know what to do next in the never ending cycle of improvement'</i></p> <p><i>'This was an amazing experience for me as a newly appointed SENCo. I came out of this with clear goals and targets for myself and the school. We also went through an OFSTED inspection and having this report was very helpful'</i></p> <p><i>'... a very positive experience and a very useful audit for the school. It has helped the SEN Lead reflect and share practice and answer probing questions in preparation for OFSTED. A great model and should be rolled out to other schools'</i></p>
