FAMILY LINKS

This 10 session weekly course helps parents of children 2-12 years olds by offering many positive, practical and fun ways of guiding children so they can manage their feelings and behaviour. Based on the four core principles of self-reflection, positive discipline, empathy and appropriate expectations, the course help parents reflect on their own experience as a child and being parented and how this affects your parenting now. There is a focus on looking after yourself and understanding you and your own child's emotional needs and build good communication and practical strategies to manage behaviour.
