What our customers say

The Ealing Early Years Team has provided us with excellent support to ensure that the nursery provides quality childcare. As a new nursery setting, we welcomed the invaluable advice that the consultants have provided us.

Following the visit of the EY Consultants, the team...has made great improvements.

The nursery staff are so happy with the training so far. I'm hearing lots of positive feedback and it's encouraging the staff to make positive changes in the nursery and take on some additional responsibility.

The...(early years provider) in the London Borough of Ealing, has derived considerable benefit from the support provided by local authority early years staff.
