Color Coding of Cleaning Equipment and Materials

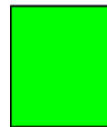

- Building Cleaning Services operates a colour coding system on all contracts where multiple cleaning needs are required. This eliminates the risk of cross-contamination and is beneficial to all parties in developing a cleaner, safer and more hygienic working environment, helping to reduce absenteeism through sickness. The colour coding is accepted as a standard system throughout the cleaning industry.

General Cleaning

Our partnership with Ealing Schools can evolve, and we propose to adopt a continuous improvement strategy throughout the contract to deliver a quality cleaning service and ongoing financial savings. We believe we are the ideal partners for Ealing Schools cleaning contracts, and would welcome the opportunity to work with you.
